Dear Friends

The last FISU World Summer University Games was extremely successful for the Poland University Team. In Chengdu, we won 43 medals, and although we know it will be difficult to improve on this result, we will certainly try.

In Rhine-Ruhr, Polish student-athletes will begin to win their fifth century of medals at the FISU World Summer University Games. We have participated in these competitions from the very beginning, with our history dating back to 1909.

We are proud that the Student World Championships of 1924, considered to be the first university championships, were organised in Warsaw. Nowadays, the University Sports Association of Poland has approximately 40,000 members, a main board in Warsaw, 16 regional boards, and over 200 university clubs.

Our crème de la crème is professional sport. AZS members are sports stars who are well-known around the globe. Our athletes win medals at the biggest events, where they make up to 30% of the Polish national team. The first Olympic gold medal for Poland was won by Halina Konopacka (athletics, AZS Warszawa, 1928). Of the 331 Olympic medals won by Poland, 66 have been won by athletes from AZS clubs.

Each year, we host international EUSA and FISU competitions. The most important of these were two Winter Universiades held in Zakopane (1993 and 2001). Poland has also organised 33 World University Championships and 27 European University Championships. In 2022, together with the Lodz University of Technology and the city of Lodz, we organized the largest student sports event in our history. Almost 5,000 students from almost 40 European countries and over 400 universities attended the European University Games in Lodz.

In 2025, AZS Poland will organise European University Championships in rowing (Bydgoszcz), orienteering (Lodz), and combat sports (Warsaw). In 2026, we will organise the World University Championships in futsal (Warsaw). We invite everyone to these events!

One of the key focus areas is "sports for all." For over 50 years, we have organised Polish University Championships (AMP) promoting sport among students. The best students then receive an opportunity to compete in the European Championships. Currently, AMP brings together over 130 universities and colleges, more than 40 disciplines, and 77 nationwide tournaments, with over 20,000 students participating.

Looking at AZS from the perspective of its almost 115-year history, it is clear that the organisation has remained faithful to the ideals and rules of university sport defined by its founders, while today's students bring a sparkle of youth, joy, and strength to the organisation.

Professor Alojzy Z. Nowak, Ph.D
President of the University
Sports Association of Poland

Dear Athletes, Students, and Friends of University Sport,

on behalf of the Ministry of Sport and Tourism, we proudly and enthusiastically welcome you to the 2025 FISU World University Games, commencing on 16th July. This prestigious event brings together the brightest talents from around the globe, and the Poland University Team, proudly representing the University Sports Association of Poland (AZS), is ready to compete with passion and determination.

The Summer University Games are a celebration of ambition, resilience, and the unique journey of student-athletes who balance the demands of academic excellence with the pursuit of athletic greatness. You, our extraordinary athletes, embody this dual path, proving that dedication to both education and sport can lead to remarkable achievements.

The University Games have long been the hotbed for Polish sports legends. Icons such as Justyna Święty-Ersetic, Małgorzata Hołub-Kowalik, Władysław Kozakiewicz, and Tomasz Majewski first showcased their talents at the University Games, paving the way for triumphs at the Olympic Games. Their legacy inspires us all to seize this opportunity and write another chapter in the history of Polish sport.

The Ministry of Sport and Tourism strongly supports the pursuit of sporting excellence. Through strategic initiatives, we provide the University Sports Association of Poland with access to training facilities, professional coaching, and development programs, enabling student-athletes to compete at the highest level while achieving their academic goals.

Poland's impressive total of 400 medals won at past Summer University Games reflects the determination, skill, and unity of our student-athletes.

To the Poland University Team: may your determination and passion shine at the 2025 FISU World University Games. We wish you strength, focus, and success as you inspire future generations.

Ministry of Sport and Tourism

Ministry of Sport and Tourism
Republic of Poland

Ministry of Science and Higher Education
Republic of Poland

Ladies and Gentlemen, Dear Student-Athletes,

ahead of us lies a unique celebration of sport and student-athletes from all over the world, The 2025 FISU World University Games, which this time will be held in the Rhine-Ruhr region of Germany. I am a keen supporter of all the members of Poland's University Team – outstanding young people who are able to combine studying at a university with intensive practice and preparations for competitions.

Supporting ambitious athletes who want to attend universities and win medals while simultaneously studying is one of the priorities of the Ministry of Science and Higher Education. That is why we are continuing the project called the "National Academic Team". It allows young people to pursue a sports career and study at a public or private university at the same time. Every year, we allocate funds for this purpose which co-subsidise individual courses of studies for particular student-athletes. The project is immensely popular as shown by the fact that, compared to the first edition in 2020, twice as many talented athletes have taken part in it in the ongoing academic year.

I am keeping my fingers crossed for all the members of Poland's University Team. I am convinced that thanks to your skills, talents and aptitude in sports, as well as because of your perseverance and hard work, you are ready to reap the highest rewards. Follow in the footsteps of the best such as for instance Justyna Święty-Ersetic, Małgorzata Hołub-Kowalik, Władysław Kozakiewicz or Tomasz Majewski, who after their victories at University Games, went on to win at the Olympics. Thank you for your commitment and for representing Poland in international competitions for student athletes, promoting our country and Polish universities. I wish you every success, satisfaction from improving your results and determination to take up new challenges.

Best of luck!

Marcin Kulasek
Minister of Science
and Higher Education

Dear Athletes,

I congratulate you on your participation in 2025 FISU World University Games - an event that not only celebrates the spirit of sport, but also unites young people from around the world through shared passion, effort, and dreams.

As PGE Group - the largest power sector company in Poland, responsible for delivering energy to nearly 6 million customers - we are very pleased to accompany you on this extraordinary journey. For us, being a partner of the Poland University Team is more than just a cooperation - it is our commitment to the development of young people, their physical education, and opportunities to ensure they can fulfil their dreams.

For some of you, this will be the first chance to wear the white-and-red uniform and represent our country in sports competition. For others, it is another chapter in a beautiful career. But for all of you - it is a unique chance to share emotions, compete in the spirit of fair play, and create unforgettable memories.

Your effort, dedication, and ability to balance academic pursuits with intense training deserve the highest respect. It is proof that success is never accidental — it requires courage, consistency, and perseverance. We believe that for many of you, participation in the 2025 FISU World University Games will mark the beginning of a great international career.

At PGE, we believe that sport begins at an early age - that is why we support children and youth through the PGE Junior Program. We proudly supported the Polish Universities Championships, which ended in great success, and we will also support the Academic Sports Congress. We see a tremendous potential in academic sports, and we have the reason to believe in it - above all, the numerous successes of Polish athletes in the history of the Universiades, including the impressive total of 604 medals in both the winter and summer editions.

Let yourselves be inspired by the names that are written in golden letters in the history of Polish sport: Justyna Święty-Ersetic, Małgorzata Hołub-Kowalik, Władysław Kozakiewicz, Tomasz Majewski, and Irena Kirszenstein-Szewińska - all of whom won Olympic medals, and whose paths led through the Universiades.

I wish you outstanding performances, sporting satisfaction, and many reasons to be proud. PGE will be keeping its fingers crossed for you and cheering you on wholeheartedly.

Dariusz Marzec
