## Dear Friends

The University Sports Association (AZS) is the largest students' organisation in Poland. It was established in 1909 in Kraków. As the precursor of the university sport movement, the AZS has actively participated in international student sporting events since the very beginning.

The Student World Championships of 1924, considered as the first university championships, were organised in Warsaw. After World War II, when the International University Sport Federation (FISU) was created, the AZS was among the first federations to join it. Nowadays, Poland's AZS has approximately 35,000 members, its main board in Warsaw, 17 regional boards, and over 250 university clubs.

Our crème de la crème is professional sport. AZS members are sport stars who are well-known around the globe. Our athletes win medals at the biggest events, where they make up to 30% of the Polish national team. The first Olympic gold medal for Poland was won by Halina Konopacka (athletics, AZS Warszawa, 1928). Of 331 Olympic medals won by Poland, 66 have been won by athletes of AZS clubs. In Universiades, our students have received a total of 590 medals to date: 171 gold, 199 silver and 220 bronze (in the Winter Universiades 57 gold, 65 silver and 68 bronze).

Each year, we host international EUSA and FISU competitions. The most important of these were the European Universities Games in Lodz (2022) and two Winter Universiades in Zakopane (1993 and 2001). Poland has also organised 34 World University Championships and 28 European Universities Championships. Every year we participate in many international academic sports events and win many medals there.

One of key focus areas is "sports for all". For over 50 years, we have organised Polish Universities Championships (AMP), which promote sport among students. The best students then receive an opportunity to compete in the European Championships. Currently, AMP brings together over 130 universities and colleges, 47 disciplines (including snowboarding and alpine skiing) and 80 nationwide tournaments, with over 19,000 students participating.

Looking at the AZS from the perspective of its 115-year history, it is clear that the organisation has remained faithful to the ideals and rules of university sport defined by its founders, while today's students bring a sparkle of youth, joy and strength to the organisation. Poland University Team will show this joy and strength during the competition in Turin.

# Ladies and Gentlemen, Dear Athletes,

we are proud and pleased to extend our support and to wish the best of luck to the entire Poland University Team that will soon compete with the top athletes from all over the world at the 2025 FISU Winter World University Games in Turin. The World University Games are an extraordinary event that connects the spirit of sporting competition with the passion for learning, thus providing a perfect example of combining sports career and education in a harmonious way. Members of the national team of Poland show that it is possible to make dreams come true in two areas: in sport and in education. This attitude deserves the greatest appreciation and is a source of inspiration for successive generations of young people.

Poland has a great tradition of sports achievements at the World University Games. We have won as many as 590 medals in summer and winter editions, including 190 at the winter games. Turin is a unique opportunity for us. Thanks to determination, talent and hard work we can achieve further successes and set new historic milestones.

We support our team in their efforts to reaching this goal. The Ministry of Sport and Tourism regularly contributes to the development of university sports by providing systemic support, which makes it possible for student-athletes to develop both in sports arenas and in their educational lives.

We remember the great achievements of athletes such as Tomasz Sikora or Justyna Kowalczyk who gained valuable experience and shaped their sporting opportunities at the World University Games. Members of our current national team are their natural successors. We believe that in Turin, new victories will be added to the successful history of Polish university sports.

The Poland University Team is one of the main pillars of Polish sport. The successes of the University Sports Association of Poland at the World University Games qualifiers prove that we are among the top teams in Europe and in the world.

We wish you the best of luck at the 2025 FISU Winter World University Games. We hope that the event in Turin will bring you a lot of joy, sports victories and unforgettable memories. We believe you will do all you can to win, both for yourselves and for Poland.

Good luck and see you on the podium.  
Best regards,

**Ministry of Sport and Tourism**
